SUMMARY

Motivated and enthusiastic Data Science aspirant with a Bachelor's degree in Information Technology. Skilled in Python, SQL, and data analysis, with hands-on experience in database and machine learning projects. Currently learning Machine Learning, Power BI, and Generative AI. Passionate about solving real-world problems using data and eager to begin a career as a Data Scientist or Data Analyst.

TECHNICAL SKILLS

Programming: Python, SQL, Java, C/C++, JavaScript
Python Libraries: Pandas, NumPy, Matplotlib, Seaborn
Machine Learning: Machine Learning, Supervised Learning, Unsupervised Learning, Regression, Classification, Clustering, Feature Engineering, Model Evaluation, Scikit-learn, Random Forest, Decision Tree, Linear Regression, Logistic Regression
Data Analytics: Microsoft Excel, Advanced Excel, Power Query, Data Cleaning, Data Preprocessing, EDA, Data Visualization
Databases & Tools: MySQL, Jupyter Notebook, VS Code, Git, GitHub
Currently Learning: Generative AI, Power BI, Deep Learning

PROJECTS

House Price Prediction Python, Pandas, NumPy, Scikit-learn, Flask, HTML, CSS

- Developed a machine learning model to predict house and flat prices based on property features.
- Performed data preprocessing, EDA, feature engineering, and model training.
- Built a simple web interface to enter property details and display predicted prices.

Sales Analysis Python, Pandas, NumPy, Matplotlib, Seaborn, Excel

- Analyzed sales data to identify sales trends, top-performing products, and business insights.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA).
- Created charts and visualizations to present sales performance and support data-driven insights.

ACHIEVEMENTS

- Completed multiple practical projects in Python, SQL, Data Analysis, and Machine Learning.
- Developed a House Price Prediction machine learning project using real-world property data.
- Completed a Sales Analysis project involving data cleaning, EDA, and data visualization.
- Completed a Java Developer Project-Based Internship at TechnoHacks Solutions Pvt. Ltd.
- Continuously developing skills in Data Science, Machine Learning, and Generative AI through practical projects.

EDUCATION

Bachelor of Information Technology (BSc IT) **2023–2026**
MIT Arts, Commerce and Science College Alandi , Pune CGPA: 7.80
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Data Science, Data Analysis
